# Information about the Federal LIHEAP Program to Help Pay Your Utility Bills

LIHEAP, the Low Income Home Energy Assistance Program, provides funds to assist elderly and poor families with their utility bills. The funds are administered by the Mississippi Division of Community Services through offices throughout Mississippi.

For a number of years, Entergy Mississippi has joined with the Mississippi Congressional delegation and many other civic and community leaders across the state to urge Congress to provide more funds for needy Mississippi families.

This year, Congress and the President approved a large one-year increase in the program, which means that more deserving Mississippi residents can get help. The aid is especially critical this year, when many eligible individuals have been hit with the one-two punch of storm devastation and high natural gas prices.

For the first time, Congress recognized the need for helping people with cooling costs as well as heating. Anyone who has lived in Mississippi in the summertime knows that our muggy heat can be as devastating for the elderly and frail as cold is.

Because we see the hardships our low-income and elderly customers face in juggling their limited incomes, Entergy has championed the program for many years. Despite growing needs and rising energy prices, funding levels for LIHEAP have remained almost flat since its inception in 1981. Since then, the program's buying power has decreased by 58 percent while the cost of living has more than doubled.

If you are facing disconnection of your utility bills, find out if you qualify for LIHEAP aid by contacting the local office nearest you.
