P.S.C. Schedule No. I-27.3  
Revised Schedule No. 27.3, Date: December 31, 2002  
Superseded Schedule No. 27.3, Date: March 25, 1994  
Schedule Consists of: One Page

---

**HIGHLY FLUCTUATING LOAD RIDER SCHEDULE HF-9**

---

**I. AVAILABILITY**

At points on existing facilities having adequate capacity and suitable voltage for delivery of service from the Company's interconnected transmission system.

**II. APPLICATION**

Company normally provides facilities adequate to serve reasonably stable loads up to its customer's Capacity Requirements as indicated by the greater of the Maximum kW in the Agreement For Service or the highest fifteen-minute average load previously established. Where such facilities are inadequate or where Customer's operation adversely affects Company's service to others because of highly fluctuating loads such as those imposed by transformer type welders, X-ray machines, and hoists, by agreement under this Rider Company will provide adequate facilities to supply the requirement of Customer for such loads.

**III. SERVICE FACILITIES**

Service to Customer's highly fluctuating load will be rendered at Company's option by providing the necessary capacity in its facilities and used to serve Customer's total requirements or by providing separate facilities.

**IV. BILLING**

To the monthly billing in accordance with the applicable rate schedule there shall be added an amount equal to the greater of the following:

(a) \$0.28 per KVA of transformer capacity installed to serve the highly fluctuating load in excess of the transformer capacity that would normally be installed to serve a load equal to Customer's maximum fifteen-minute average load (excess transformer capacity for purposes of this Rider is \_\_\_\_\_). This amount shall be added to the net monthly billing before application of the rate schedule adjustments.

or

(b) 1.50% of the estimated installed cost of the facilities provided by Company to serve the customer in excess of the cost of the facilities the Company would otherwise provide to serve a load equal to Customer's maximum fifteen-minute average load (estimated installed cost of these facilities for the purpose of this Rider is \_\_\_\_\_). This amount shall be added after application of the rate schedule adjustments.

**V. CONTRACT PERIOD**

Not less than five years, and for like periods thereafter, in accordance with Company's Agreement For Service.

**VI. RESERVATION**

Subject to orders of regulatory authorities having jurisdiction and to the provisions of Company's Service Policy currently on file with the Mississippi Public Service Commission.
